"You Shall Know the Truth"

War is the sum-total of all crimes. Left to themselves no people would make war. War-makers are heartless, cunning, greedy All wars are for booty. The U. S. A. engaged in wars for the booty of the Allies and the destruction of free government by the people, of the people, for the people. Wars bring slavery and conscription, debts and poverty for unborn generations even.

Open Letter to U. S. Senators

Voters Alliance for Americans of German Ancestry

P. O. Box No. 143 Station Y, New York, N. Y.

Dear Sir:

If the Secretary of State returns from Moscow with a peace treaty for Germany, you will be asked to ratify it.

If he does not bring home such a treaty, it will then devolve on you to put an official end to the war and to reestablish peace by converting one of de facto into one of de jure through a simple resolution declaring that peace exists between the United States and Germany and that all war measures shall be abolished. Such was done at the end of World War I when the U. S. Senate refused to sign Mr. Wilson's peace treaty.

Should Mr. Marshall return with the draft of a peace treaty, the Senate, in its aims and debates, should then be guided by a truly American spirit, a spirit that has been sadly lacking in the past few years, a spirit of construction instead of one of destruction.

The Executive part of the government, no doubt, has ready a peace treaty such as its policy-makers want but which may not square with what American conception of such a treaty should be. It is, therefore, up to you as a representative of the people of this country and not only of one or two segments of it, to frame a treaty that can be called a treaty of peace.

A true peace cannot be built on the ruins of any one country. A peace that does not give the Vanquished the right to exist is no peace, least of all a peace to which America could subscribe. An unjust, vindictive peace is no peace at all but the continuation of war by economic and terroristic means, a straightjacket in which to hold the Vanquished in subjection and which they would make every effort to shake off in order to gain national freedom.

In a way this country is already morally committed to a real peace, not only on account of Mr. Wilson's "14 points", which were to a large extent ignored at Versailles and on account of "The Atlantic Charter" but on account of Gen. Eisenhower's promise that we came as conquerors but not as oppressors.

After the Napoleonic wars there was no war on a large scale for 100 years, the reason being that the Victors considered the Vanquished so much that it has often been said that France, through Talleyrand, emerged from the Vienna Congress the victor over her conquerors.

Now, since a durable peace depends on the consent of the Germanic countries, the following prerequisites for such a one should be observed:

1. Germany to be represented at the making of peace to speak for Germany.
2. There must be no dictate but a peace by agreement.
3. No annexations of any kind and re-establishment of all European borders as they were before the first World War. Poland to be given access to the sea on a wide road or perhaps a corridor north of Koenigsberg.
4. No cession of the Saar to France. France was prosperous without the Saar and will become so again, in fact already is on the road to prosperity. Besides, she has no claims to it on any grounds. Cession of the Saar, as German as any other part of Germany, would surely bring on another war.
5. Re-admission of 3½ million "Sudeten"-Germans to their ancient and rightful homes in Bohemia and Moravia, latterly called "Czecho-Slovakia", where they have been longer than the Czechs and never were a "minority" as propaganda of press and radio has made people believe.
6. Return of German investments inside and outside of Germany, especially the return of her bank balances in Sweden, Switzerland and Spain which the victors acquired through threats and in violation of existing international law and of treaty.
7. Return of the thousands of patents and processes, worth billions of dollars, which, in the language of "The New York Times" the victors had "seized" or "captured" (for exploitation by themselves).
8. Return of German merchant-shipping, so that Germany may reestablish her splendid merchant-marine, admired by all, and be able to again trade in the world.
9. Immediate return of her coal mines to their rightful German owners so that they may again supply German and other homes with fuel and enable industries to start up again to satisfy the enormous wants of everybody in everything.
10. Return of all "captured" gold, silver, jewels, medals, masterpieces, race- and stud-horses, historic coaches and other "booty".
11. Return of all prisoners of war and compensation to Germany for work performed by them as slaves, according to the schedules prescribed by the Geneva Convention and return to the prisoners of all cash and valuables in their original shape taken from them by their captors or exploiters.
12. Immediate discontinuance of the systematic deforestation of German forests, now being carried out in all zones to the detriment of German future revenues, her soil and climate.
13. No limitation to Germany's right to manufacture for export and to trade with other nations and cessation of charging German assets to "reparations", including manufactured and agricultural products past and present.
14. Access to the raw materials of other countries.
15. Immediate cessation of all dismantling or blowing up of still existing German industries and compensation for those removed, a process never recognized by international law.
16. Renunciation of all so-called "reparations" by the Western nations which aggressed against Germany.
17. Permission to Germany to establish a government of her own choice, in keeping with her "way of life" and historic tradition, the very essence of the democratic idea.
18. Restoration of the freedom of press and radio for the same reason.
19. Reestablishment of foreign consular and diplomatic representation, the symbol of sovereignty.
20. Grant Germany a loan for the rebuilding of her shattered cities and industries.
21. Withdrawal of all occupying armies with their hangers-on, excepting a token force for a limited period.
22. If possible, a union of occidental European nations to the exclusion of Eurasian ones.

Present before you, Senator, should be the immense contributions which Germans have made to our modern civilization.

I enumerate but a few of their greatest: Goethe, Schiller, Beethoven, Bach, Handel, Haydn, Mozart, Wagner, Brahms, Schubert, Schumann, Holbein, Duerer, Lenbach, Menzel, Zuegel, Kant, Leibniz, Schopenhauer, Roentgen, Daimler, Diesel, Kekule', Liebig, Bayer, Virchow, Koch and other immortals of the past and the present.

The world has its eyes on the Senate of the United States for a true appraisal of our country's right to moral leadership in the world.

Yours truly,

A. O. Tittman - Conrad K. Grieb

Jewish "Bund" Pictures in New York TIMES

NEW YORK,—The nation and the Allied press have been flooded with hate propaganda against the German - American "Bund". The magazines, daily papers, news reels and the radio have blared forth venom and warnings against the menace of the "fascists" in our midst. The flames of hate were fanned to blinding white heat until to be a German, or an American of German ancestry, was in itself a crime and cause enough for being held in a concentration camp, being hounded by the FBI, being denaturalized and ostracized.

Yet, behold, in the city which is the Jewish capital of the world, since here in New York there is a greater concentration of Jews as well as Jewish financial power than can be found elsewhere on earth, a new flag is raised, an army is recruited, allegiance sworn, not to the stars and stripes, but to the star of David.

Who are these people? Are they Americans?

Henry Wallace has been touring foreign countries to influence its peoples and he has been publicly denounced for making contacts with foreigners in matters of international affairs which is a prerogative of the President and the U. S. Senate, but not of private citizens, according to law; yet, in the city of New York, openly a new flag is raised; an army is recruited and trained; to defend America, the stars and stripes?

No! While posing as Americans, under American protection, eating American bread, these people swear allegiance to an alien government which they propose to set up **by force and violence.**

How does it come that when the German "Bundists" were suspected of giving their allegiance to a foreign government, the Department of Justice **moved to have their citizenship revoked** and it was done in many, many cases! How does it come that when the N. Y. TIMES in its issue of Jan. 14, 1946, publishes pictures, gives names and addresses of a Jewish "Bund" which openly flaunts an alien flag, trains uniformed troops of both sexes in the "art" of guerilla warfare, which means murder and sabotage, and openly vow to give their lives for a foreign government, **against an ALLIED government with which the U. S. A. is at PEACE,** the Attorney General is taking no steps to revoke their citizenship? Does the same law not apply to Jews as it applies to white men?

Why is it a crime and menace to the peace and tranquility of the nation to train in army formation in a German "Bund", but not a crime **to openly swear allegiance to carry on TERRORISM, murder and sabotage** under the Jewish flag of the Star of David? Can we have divided allegiance? Can we raise an alien army in our midst and be safe in our persons and property when these aliens swear to foster the interests of a fanatic group by murder, violence, terrorism and sabotage?

The article which appeared in the N. Y. TIMES speaks for itself.

Youths Drill Here to Free Palestine

UNIFORMED JEWISH GROUP HAS TRAINING SESSION 2 NIGHTS A WEEK IN HARLEM GYMNASIUM

By A. J. GORDON

For the last month a uniformed group of ninety-eight young men and women, members of an affiliate of the New Zionist Organization of America, whose headquarters are at 55 West Forty-second Street, have been quietly drilling and training two nights a week in a Harlem gymnasium, representatives of the organization disclosed yesterday.

Neither the affiliate nor the New Zionist Organization of America is in any manner connected with the Zionist Organization of America, with national headquarters in Washington, and offices in the larger cities throughout the country.

The affiliate of the New Zionist Organization of America calls itself Brith Trumpeldor of America, Inc., and has for its objective joining up with the militant movement in Palestine for a Jewish state. Spokesman declared that those who complete the course at the end of two months will endeavor to get into Palestine through the so-called "illegal route", if visas from here to that country are not made available.

MILITANT YOUTH ORGANIZATION

Brith Trumpeldor of America, Inc., describes itself as a militant Zionist youth organization. Its members are receiving instruction in drill, jiu jitsu, map reading, Palestine geography and topography, radio communications, Jewish history, Hebrew, Arabic, wrestling and hand-to-hand fighting. Headquarters of Brith Trumpeldor in this country are the same as those of the New Zionist Organization of America, on the fifteenth floor of the West Forty-second Street address.

Aaron Z. Propes, a former Latvian army officer who came here from Palestine five years ago, is director of the training, which is carried on in the gymnasium on the second floor of the building at 252 West 116th Street. He said the reason for training this group and others to follow is that "after German prisoners of war and native English nazis have been released from custody, Jewish nationals are languishing and perishing behind concentration camp walls, and in Palestine men, women and children are being shot down mercilessly by British troops.

"In such circumstances a virtual state of hostilities exists between the British and the Jewish nations," he continued. "Palestine is an occupied country. The Jewish underground and partisans are on the offensive. Young Jews throughout the world stand ready to join the struggle.

OFFICERS' TRAINING SCHOOL

"The Brith Trumpeldor — Betar (contracted name of the organization)—is their place of mobilization. The officers' training school will supply instructors, one hundred from every class, to the thousands who look to Betar for guidance and adequate preparation for the task confronting them and Jewry".

Many American Jewish youths, he declared, "are disgusted with British treachery, practiced on a people which is prostrate.

"England did not commit only an injustice," he said; "England and the world are responsible for the death of millions of Jews, and American Jewish youth knows that but for a slight accident in their own family history, they too would have been among the corpses.

"In the war just concluded, the Jews suffered twenty-five times more dead than the whole British Empire combined. The world has been liberated, yet the Jewish nation remains in English chains.

"We will not accept this position. American Jewish youth has been reared in the letter and spirit of the democratic principles of the United States. They know the value of liberty and they will secure it for the Jewish nation. Guts are not lacking in America. The Betar officers' school has started the ball rolling on the North American continent."

DRILLS HELD TWICE A WEEK

The drills are held every Wednesday and

Saturday from 7 to 11 in the evening. Jiu jitsu is taught by an instructor described as Maj. Allen Smith, a veteran of the Spanish-American War. Military drill is under the instruction of Isaiah Warshaw, a former member of the 112th Cavalry, United States Army. Spokesmen of Brith Trumpeldor claim a membership of 1,000 throughout the country.

In its appeal to prospective recruits through illustrated pamphlets Trumpeldor says to Jewish youth: "If you are ready for action, if you want more than demonstrations, if you believe as we do that in the hands of American Jewish youth lies the future of Palestine, if you are a proud and militant Jew, then you will join our school."

The pamphlet adds that Jewish youth of the ages of 16 and over are eligible. It lists as some of the subjects of the school curriculum "Jewish History, Palestine Geography, Current Political Problems, Psychology of Leadership, Propaganda, Radio Communication, Betar Ideology, Drill, Jujitsu, Boxing, Map Reading and Sketching." It announces among the main principles of the organization the following:

"Betar recognizes that the aim of Zionism is the creation of a Jewish state in Eretz Israel (Palestine) on both sides of the Jordan, with a Jewish majority. The task of Betar is to organize and educate Jewish youth to take their place in creating a Jewish state and to be ready to make sacrifices in order to achieve this goal in the shortest period of time."

The school was described as the first of its kind in the history of American Jews. The hope was expressed that additional schools may be estabished in the near future.

STATE DEPARTMENT NOT INTERESTED

WASHINGTON, Jan. 13 (UP)—The State Department disclaimed interest tonight in the program of a training school for youth desiring to enter Palestine, illegally if necessary, to join the "Jewish liberation movement". A department spokesman said there were no laws to prevent training in methods of entering a country illegally, nor would a program of study contrary to the interests of any foreign state be prohibited.

LIFE IMPRISONMENT FOR EXPOSING COMMUNISTS!

If you could be fortunate—or unfortunate—enough to gain access to the District of Columbia Jail in our nation's capitol, you might have pointed out to you our country's No. 1 Political Prisoner.

Maybe you think America doesn't have political prisoners, that such practices are confined to communistic Europe. But repugnant as it seems to free-born Americans, our country **does** have political prisoners. Not interned Germans. Not ex-prisoners of war. It has native American citizens confined behind bars for no other offense than that they formerly disagreed with the policies of Roosevelt or assailed the crackpot measures of his wastrel New Dealers, or were too active against Communism when Russia was a war ally instead of merely a spy-nest against constitutional America.

Perhaps they weren't convicted for that. Trickery, false evidence, charging one thing and proving another, callous disregard of constitutional rights, these were the expedients employed to imprison them. But behind the prosecution one objective was dominant: To get too-outspoken critics of the Administration confined behind bars where their voices could be suppressed and their activities short-circuited. Particularly were critics of the pro-communist policies of the New Deal suppressed and short-circuited.

To make matters still more insufferable from the American point of view, the nation's No. 1 Political Prisoner was handed the equivalent of a **life sentence** for criticizing Roosevelt.

For four and one-half years he has been locked away in District of Columbia Jail. It will be 1957 before his sentence is served in full. He will be nearly 70 years of age when he walks forth a free man. But his life will be behind him. His friends will be dead. He will be enfeebled by confinement, exhausted in resources, dependent on relatives for sustenance in the uncertain years that may remain to him.

He will be, in short, the American Dreyfus—in reverse. You may recall the internationally infamous Dreyfus Case of a generation past, the Jew who was sentenced to Devil's Island because he knew too many of France's political secrets prior to World War I.

But America's foremost Political Prisoner is not a Jew. He is a Protestant-American, a native of Massachusetts, a veteran of World War I, a writer and publisher whose biography for 20 years was regularly contained in "Who's Who in America". For nearly 50 years of his life he had never once seen the inside of a police station on any charge whatsoever. His record was clean, he was respected and affluent—a self-made citizen with every prospect of completing his life successfully and honorably.

However, in 1934 he was guilty of a blunder.

It wasn't a criminal blunder in any sense involving the penal statutes, or moral turpitude, or the transgressing of rights inviolate to others.

His blunder—and it must have been such to lay him open to ruin—was far more serious from the political standpoint than robbing filling stations, molesting women, setting fire to orphan asylums, or even slaying his fellowman.

The thing this man did was to start speaking scathingly against Franklin D. Roosevelt and his New Deal shenanigans, accuse him of maneuvering this nation into war, expose the pro-Russian sympathies of his Administration, castigate his Executive duplicities, and point out in blistering fulminations the tragic dilemma this country would face if Russia emerged triumphant from inevitable war in Europe.

Being a native American and a lifelong Republican, the nation's foremost Political Prisoner assumed the Constitution gave him unalienable rights of free speech and free press. Having been stationed in Siberian Russia in World War I, he had seen Communism established in a country from first-hand observation. Having a publishing house at his command he would disclose the behind-the-scenes maneuverings of Roosevelt and his pro-Moscow henchmen to weaken the United States in Stalin's favor, bankrupt her treasury, involve her in war with the Soviet's enemies and pour out her resources in an immoral squanderbust under the guise of Progress and Prosperity.

That was in 1934—two years after Roosevelt had projected his Brain Trust.

Today, 13 years later, viewing the walls of his jail cell week upon week, month upon month, America's foremost Political Prisoner knows from reflection that the Bill of Rights in the Federal Constitution means little if an Administration is in power that elects to disregard it, that it wasn't personal failure that brought him to his plight.

It was tragic success!

He had been first to assail the communist menace on a national scale in days when assailing the communist menace was "Red-baiting" and "un-American" activity.

He had organized a national Christian movement of 25,000 to 40,000 sterling Americans whose job was to expose the growing Soviet menace in every city, town and hamlet in the land, and combat it as they could.

He had published and was distributing 2,000,000 to 3,000,000 copies of pro-American, anti-Soviet literature each year, **including one vital booklet which listed the names and allocations of 1500 pro-Stalinites right in the departments of the Washington government itself**—this as early as 1938.

His maneuverings had brought about the creation of the Committee on un-American Activities in the Congress, a priceless vigilance on patriotism which endures to this moment.

He had shown up the growing communistic control of some of our mightiest labor unions—until a page from any of his publications in the 1930s reads like the headlines in the more enlightened newspapers of tonight.

There could be but one outcome to such unthinkable audacity—with the power-drunk New Dealers in command of the means of punishment.

Roosevelt must be sacrosanct. The New Dealers must be protected. The communists must be saved from further harrassment.

The moment the United States was successfully embroiled in a war on two fronts, the steam roller started rolling!

With the second great conflict a bloody reality, criticism of Roosevelt's conduct of his office could be stopped at its source.

¶ To say that the President of the United State wasn't telling the truth about what he was doing, or wasn't doing what he should do in America's interests, was tantamount to wrecking the faith of the man in uniform in the leadership of the country for which he was fighting

Q. E. D.—Criticism of Roosevelt too effectively circulated equalled an attack on the morale of the Army and Navy—and that was punishable by statutes made and provided.

Free speech could be suspended. Anti-Rooseveltism was sedition.

So America's No. 1 Political Prisoner was seized by the FBI, indicted by a midwest Grand Jury whose members had been poisoned by the nauseous broadcasts of the smear artist, Winchell, tried at a time of national hysteria, convicted by a court that openly took the side of the prosecution, **and sentenced for something which the U. S. Supreme Court two years later in another case was to declare not criminal in any aspect!**

That sentence was a life sentence—the only one of its kind handed out in the whole United States from Pearl Harbor to VJ Day—fifteen years in a Federal penitentiary, which visited upon a man in his fifties was the stopping of time for him, a consignment to a living death and the end of all things respectable, honorable and worthy.

And when no less than five great Supreme Court decisions subsequently came down, any one of which should have freed him and meant his exoneraion, the crowning injustice inflicted upon him was refusal of any Federal court to take jurisdiction for a habeas corpus hearing that his case might be reviewed in the light of postwar sanities.

This in constitutional America, "the Land of the Free and Home of the Brave" whose First Amendment to the Bill of Rights declares, "Congress shall make no laws respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances."

But Congress **has** passed such laws—which can be distorted in war time to make it a punishable offense to criticize the leader of a prevalent political party too effectively—and abhorrent as imprisonment for political offenses is to the free-born American, the New Dealers **have** "put away" at least one anti-Red publisher where he can no longer be a thorn and an obstruction in the Sovietizing of this nation.

Divest your mind of all prejudices for a moment—if you have prejudices—and consider the travesty on justice which has been worked upon this man, simply from the standpoint of constitutional prerogative. . . . .

G.O.P. Committee Sells Party Into Slavery For $250,000—Drunkard Returns to His Vomit—"Foreigners" Win

WASHINGTON, April 23 (Special)—Rumblings are again heard from the graves of the Founding Fathers.

They are turning over in their sepulchres at the latest insult to their plan for selecting a President. It happened in Kansas City, Monday, April 21.

On that day the Republican National Committee put the "Grand Old Party" on the "auction block and awarded it to the highest bidder."

For the sum of $250,000 in cash and unlimited "board and room" it voted to return to Philadelphia in 1948—to the scene of the most infamous Trojan Horse party betrayal in American history.

There in the dead of a late June night, 1940, the 1,000 party hacks and stooges allowed themselves to be hypnotized and beguiled into nominating the life-long international socialist and Tammanyite, **Wendell Willkie,** WHO NEVER HELD AN ELECTIVE OFFICE AND WHO HAD **NEVER VOTED A REPUBLICAN TICKET IN HIS LIFE!**

On that occasion the real EVIL—THE UTTER VICIOUSNESS—OF THE PARTY NOMINATING CONVENTION SYSTEM became evident for all to see.

In these national non-deliberative, non-Constitutional and non-legal blow-outs, neither the people nor their Congress are represented.

In both major parties, they are self-appointed gatherings of self-appointed political hacks and political janissaries and satraps.

Benjamin Franklin, who signed the Declaration and the Constitution and was an advisor to George Washington, **had been dead FORTY YEARS when the infamous NOMINATING CONVENTION SYSTEM** began (in 1832). All the Founding Fathers but Madison were dead. Every one would have opposed it.

No one can read and love our Constitution, after having READ THE DEBATES OF THE GREAT 1787 CONVENTION, and believe in the "nominating system".

It is neither republican nor democratic. It is a monstrosity, which PERMITS CLIQUES, CABALS AND CAMARILLAS TO CONTROL IT—the very things that the Fathers feared and hated.

WHY DID THE FOUNDING FATHERS IN THE CONSTITUTION FORBID THE ELECTORS TO MEET IN ONE PLACE TO SELECT THE PRESIDENT?—and demand (Art. II, Sec. 1, par. 3) that the electors meet in their respective States to cast their ballots for the President?

Read their debates: IT WAS TO PREVENT CABALS, CAMARILLAS AND "FOREIGN INFLUENCE" TO INFLUENCE, PURCHASE OR COERCE THEIR BALLOTING!

While these national conventions are evil—and are destroying our republic, slowly but surely, nevertheless, if we are to have them, **then hold them as far away from New York as possible!**

For it was the New York gang, which has been ruling and ruining this nation for 14 years via the New Deal despotism, that sent 5,000 paid clackers and shouters with allotted tickets to fill the Philadelphia galleries and shout "WE WANT WILLKIE" day and night—

Men with foreign faces from the Bronx and East New York. And the New York gang, determined to CONTROL BOTH PARTIES & BOTH CONVENTIONS, sent 68,000 **FAKE TELEGRAMS** TO THE BEFUDDLED DELEGATES, to back them up. Other phony business was pulled off.

DEMAGOGUE DEWEY THE MAN

Why did the committee sell out so cheaply? When Philadelphia's handsome Jewish mayor, Bernard Samuel, appeared with $200,000 in certified checks and $50,000 additional guaranteed, the little boys were bowled over in Kansas City.

They could have gotten a MILLION, or maybe MILLIONS. Does anyone suppose that the New York gang, with the control of our nation and its gold as the prize, would have hesitated to put up 5 MILLIONS, if necessary, to control that convention in 1948?

The New York gang are for Truman, but, as in the case of Willkie in 1940, they ALSO INTEND TO CONTROL THE G. O. P., if possible, and NAME THEIR MAN—who is none other than their **Charlie McCarthy—Thomas Dewey.**

Philadelphia is practically a suburb of New York—although a finer people, the "Quakers". But New Yorkers will sit in the galleries, not Philadelphians.

The die is now cast. The National Committee controls the Republican convention. The vote was 72 by the Dewey-Vandenberg-Stassen "foreign influence" group (for Philadelphia); only 26 for Chicago, by the Taft, pro-American forces. Proxies cast for Philly were 38, 15 estimated bandwagon, leaving 19 by the "big bosses", who cast the 72.

I wonder if those committeemen had ever read Lincoln's history, and how he wrote Mark Delahay of Kansas, who asked for some money (to attend the convention of 1860):

"Allow me to say," said Lincoln, "I can not enter the ring on a money basis—first, because, in the main it is wrong; . . . the use of money is wrong" . . . except . . . "for certain objects." (P. 259, "The Lincoln Reader" by Angle).

Dewey, the greatest living demagogue (now that Roosevelt is dead) is the choice of the dominant FOREIGN INFLUENCE N. Y. GROUP to head the G. O. P.

Dewey, whose national "FEPC" would make America a Negroid Nation. The "FEPC" that California turned down by a MILLION MAJORITY.

Dewey cannot possibly win the election in 1948. But the New York "internationalist" camarilla is determined to take no chances. The G. O. P. MIGHT win, and they MUST have THEIR man in the White House. Dewey is their man. Hence, Philadelphia.

Dewey's recent "aping" of Coolidge—"no strikes against the government"—he hopes will help him with the masses.

Dewey, who kissed the infamous "New Deal" on the platform in 1944!

Stassen is their choice for vice-presidential nomination, with the apostate Vandenberg as an alternate.

The saddest news in America since Pearl Harbor.

Urge Stamp for Haym Salomon

WASHINGTON,—A resolution has been introduced in the House of Representatives to issue a three-cent stamp in honor of Haym Salomon, Polish Jewish immigrant who aided in their fight for independence. Salomon was one of the foremost financiers for the Continental Congress and sacrificed his personal fortune to help outfit and feed Washington's armies.

Editor's Note: It's one of the rawest pieces of propaganda for Polish Jews. Haym Salomon never financed the War for Independence. He was an insignificant commission broker. But the Jews wine and dine the congressmen and the drunken bums vote, then.

Right WORD — Right DEED

MY RELIGION

By HENRY FORD, Sr.

Somewhere there is a Master Mind which sends Brain waves or messages to us—the Brain of Mankind, the brain of the Earth. Maybe the Brain of Mankind is only an insignificant part of a larger unit—the Brain of the Universe.

Primitive peoples have an inkling of the truth. The American Indian, for instance, worshipped a vague divinity which he called the Great Spirit. There Is a Great Spirit. Call it Creative Evolution or World Mind. Call it Collective Intelligence or call it God. It is this spirit that determines our actions and our thoughts. That is, what we do is not done of our own volition. We are always pushed by invisible forces within or without us. Some voice, within or without us, dominates and prompts our every action. Great deeds have been done by men and women who heard such voices.

Joan of Arc obeyed a voice in a tree. Socrates asserted that his actions were inspired by his "genius" or "daimon". I cannot define the power that prompts men. It may be that we all have our "genius". The "daimon" of Socrates may be an allegory or it may be a name for certain intuitions which man acquires in the course of a long series of incarnations.

The soul gathers experience in its long pilgrimage. Life is perpetual and continuous. The human mind reaches back across aeons. There is such a thing as native knowledge, a knowledge born within us, which we inherit from previous existence.

Faith is only the shriveled vestige of our former knowledge. Our remote ancestors **knew.** They possessed the knowledge that we have lost. We have only a memory. We say we have "faith" or we believe; but once we were able to say "we **know**".

But mankind is on the way back. Science is rediscovering the lost realities. In the gospel of reincarnation is the essence of all knowledge. I adopted the theory of reincarnation when I was 26. I got the idea from a book by Orlando Smith. Until I discovered this theory I was unsettled and dissatisfied—without a compass, so to speak.

Religion offered nothing to the point—at least I was unable to discover it. Even work could not give me complete satisfaction. Work is futile if we cannot utilize the experience we collect in one life in the next.

When I discovered reincarnation it was as if I had found a universal plan. I realized that there was a chance to work out my ideas. Time was no longer limited. I was no longer a slave to the hands of the clock. There was time to plan and create.

I was 40 when I went into business, 40 when I began to evolve the Ford plant. But all the time I was getting ready. That is one thing the larger view does for you, it enables you to take time to get ready. Most of my life has been spent in preparation, for I knew that the vista before me is endless.

The discovery of reincarnation put my mind at ease. I was settled. I felt that order and progress were present in the mystery of life. I no longer looked elsewhere for a solution to the riddle of life. I would like to communicate to others the calmness and peace that the long view of life gives to us.

I do not know where we come from. I do not know where we go. But I know that we continue to accumulate experience and continue to grow. And when we go hence it may be that individual memories and characteristics are stored or preserved in certain reproductive cells which transmit our heritage from generation to generation.

The real thing, character, or the concrete result of accumulated experience, is transmitted or carried forward by means of the Queen Bee in the complicated hive which constitutes the individual. You say call it the Master Cell, or you say call it the Soul. No scientist has as yet been able to isolate the soul. It can be seen thru no lens. It can be weighed on no scale. But the fact that a thing is invisible does not mean that it does not exist.

All great forces are invisible. The wind is invisible, electricity is invisible, the soul is invisible. They are, nevertheless, real. You cannot see the power which carries you along in the automobile but you cannot deny its existence.

A fundamental unity underlies all things. Matter and mind are one. They are different aspects of the same thing. Everything is material. But reduce matter far enough and it appears as the other thing. The spiritual is only another aspect of material. The material is only another aspect of the spiritual.

We all retain, however faintly, memories of the past lives, and the body by its instincts, and the soul by its intuitions, remember and utilize the experiences of previous lives. The subconscious mind is charged with many memories that we have apparently forgotten. It takes an arousing experience of some sort to bring scenes from the deeps where they slumber to the surface of consciousness. But they are there, nevertheless. They constitute an essential part of our being.

I have no desire to travel to see the world. I feel there is nothing in the five continents or the five seas that I have not somehow seen. I am interested in people and nothing else. People are the latest, newest thing on earth. I am interested in the newest thing.

Our purpose in life is to gain experience. Man seeks more in life than food or physical comforts. Food and shelter are obtained easily enough. Few men lie down after they have obtained mere creature comfort. Most of us go on. There is an ideal, a purpose beyond it all, that keeps up the human procession. "All things stand aside for the progress of souls along the grand roads of the universe."

I do nothing because it gives me pleasure. I do things because they are necessary. I get the most satisfaction doing the difficult things, not the easy ones. Character is molded by experience and struggle.

The important thing—is to go on always. I don't know anything about the end of the road—we are a long way from any ending, but in the end we get what we deserve. We all get what we deserve.

Chats with Fred on Henry Ford

"Daddy," asked Fred after reading Henry Ford's outline of his religious idea about Life on earth. "Is Henry Ford right about the existence of a 'Brain of Mankind' as a part of the 'Brain of the Universe'?"

"Yes, Fred, he had a peek at the mystery behind the veil, only he was not sufficiently developed, nor did he have enough deep desire to know more. You see, Ford primarily is a materialist."

"What did he refer to?"

"We, in our Aryan doctrines of the nature of the universes and its living beings therein, refer to MAZDA as the MASTER who originates the THOUGHT that produces all existing worlds. There is the **High Council** of entities like ourselves, only they are developed to potentialities even exceeding those of Jesus Christ. We call them the **Immortals** and **THEY** control the destiny of the worlds and of the beings under their care. In Ford's language, they could be called the 'Brain of the Universe'. These divine rulers see to it that the worlds rotate punctually in their orbits and that the most infinitesimal atom also vibrates in proper order. That is the material aspect which Ford discovered."

"What about the 'Brain of Mankind'?"

"Under the rule of the Immortals, there are governors who are in charge of living entities. For example, trees and plants are produced by infinitesimal entities, tiny jelly-fishes, who weave the fibre, push the water, color the leaf and flower. These myriads of workers respond to the impulses of the governors, like a construction gang obeys the engineer in charge. And in that fashion plants are produced. After the tiny entities learned to produce plants they graduate and advance from their one-cell organism. The way they had learned to **create multi-cellular plants,** now they apply that knowledge to **create out of their own cell a multi-cellular jelly-fish** and in this fashion they have started on the path of animal evolution until the mammal is formed."

"These groups of governors, then, would be the 'Brains' that produce the animals on earth?"

"Yes, Fred. One could compare them in that fashion. Some Theosophists call these governors **Group Spirits.** For example, the goats have a group spirit, a divine governor, who leads the goats in their evolution. The leading impulses he gives them we call **animal instincts.** So we see that each type of animal knows its own food and how to act to survive. The governor **prompts** every animal and they all act alike. There is such a governor for every type of animal and this method leads the entities not only thru their evolution as animals, but continues even after they are developing a 'human mind'. The system of group spirit, or governor, proceeds all thru the **colored races** till the white or **Aryan** race appears."

"You mean, up to the Aryan, even 'humans' act like sheep, for example, ruled and guided by impulses radiating from the governor?"

"Yes, Fred. Humanity is taken care of in herds, in groups, all thru the colored races. But, then, **divine ingenuity sets in.** The organism has been perfected to the point where the **Governors can now INCARNATE.** That was the first white man. The **Aryan is the first INDIVIDUAL on his own.** We are no longer guided by instinct but THINK."

"Don't the colored races think?"

"In a measure, yes. Even animals think. But they are unable to THINK as **divine beings.** Therefore the governors carry responsibility by prompting them in groups. You will notice how the undeveloped tribes always cry to be LED. They holler for a leader who takes on the responsbility for the welfare of the tribe. What we call Communists, Nazis, are nothing but people who are yet **undeveloped to do their own THINKING.** That's why they **organize in labor unions.** Somebody has to boss them and 'bargain collectively' for them."

"But, daddy, are they not white?"

"No, Fred. They are mixtures, mongrels. To the extent that one IS WHITE he and she resents being bossed. It is here in America where we are to breed the **pure white race** of God-conscious individuals."

—oOo—

Where is the Aryan "white" Race?

In **Federal City,** Washington Adams, in a previous issue, took up the cry of the "fighting Nordic" Ira Calvin White for an "Association for the Advancement of White People" to offset the many Jewish and colored organizations that "mongrelize" the races. Adams writes that the "Reds" say there is no such thing as a "race", hence there can be no "Nordic race". Then he closes with a request for opinions from his readers on the endeavors of forming an "Association" for the "Whites", as against the "Mongrels".

I must join the "Reds" by questioning Adams and Ira Calvin to show me even one genuine white or Zend-Aryan "race" individual.

Both Ira and Adams object to "mixing blood" with the "lower" races. They denounce the "Reds" for not drawing the racial line in marriage. They ignore the fact that Roman Catholicism, Mohammedanism and Bahaism, as a matter religion, obliterate this demarkation; in fact, Semites, Arabs, Hebrews are prone to mix. And they are not all **atheistic "Reds".**

But the joke is on the "Nordics". Are the "Nordics" the "superior" race? Are they even human? Or are they a bastard mixture, not of "lower" human races, but, please, confess it, are they not a mixture of part animal-beasts with a trace of human remnant in them?

Analysis of the situation explains why the "white" race is the most beastly "race" on the face of the planet.

Who is that celebrated "superior Anglo-Saxon-Nordic"?

We have read mythology where Centaurs are described as a "race". We have heard about the "mermaids", half fish, half human; but nowhere has anyone described the true constitution and ingredients of the "fighting Nordics" who recently invaded the "Festung Europa" and "redeemed" that continent for Jewish-Communist domination.

If it is bad to mix a white man's blood with the "lower" Negro, is it good to mix it with the blood of pigs, sheep, hens, cows, fish, etc.?

What results from mixing blood? A bastard race.

Now look at the bastards whose veins are pulsating full of animal blood, not just of one kind, but of all kinds.

What does the so-called "white" man feed on? He starts with ham and eggs for breakfast. Result: He is now half hog and half cannibal-chicken. Now where is that "white race", the "thoroughbred"?

For lunch he has light steak, or lamb-chop. That makes him part beef and part sheep—and believe it or not, he is just that. Any wonder the Jews treat him as a "Goy" which means a BEAST? The Jews have his number.

Comes the "Association for the Advancement of White People" and prescribes "sack-cloth and ashes", fasting and praying, to "purify the blood" and "redeem the lost souls".

Yes, there is such an "Association". Jesus Christ heads it. But who cares for Him and His Kingdom of Heaven? Why, the "fighting Nordics" prefer to fight and murder, to conquer and show their "superiority" as Anglo-Saxons by enslaving and exploiting the "lower" races and finally "drafting" even every American man, woman and child to fight and murder for the Glory of England and the profit of the Sanhedrin.

A white "superior" race? Where the hell is it?!

The Law of Karma

OVER TEXAS CITY, Tex.,—In four years of war coverage, I have seen no concentrated devastation so utter, except Nagasaki, Japan, victim of the second atom bomb, as presented by flaming Texas City.

The damage along the waterfront exceeds in intensity that inflicted on Bari, Italy, in the fall of 1943 when German bombers hit that port and 17 vessels went up in flames, including three ammunition ships whose explosions killed hundreds of American troops and Italian civilians.

From the air the burning industrial port looks like a peace-time parallel of war-bombed Ploesti, Romanian oil capital.—Hal Boyle.

F. D. R. On Russia. Altho President Roosevelt believed Russia's Communist regime was "as rigid in its manner of being as is the dictatorship of Germany," he wrote Pope Pius in 1941 that "this Russian dictatorship is less dangerous than is the German form of dictatorship." His letter, together with other Washington-Vatican correspondence, was published last week by MacMillan in a volume entitled **Wartime Correspondence Between President Roosevelt and Pope Pius XII.**—The Progressive.

What is "Chlorinated Water?"

The question of poisonous drinking water simply will not down. Do the members of the medical profession know of the chemical reaction of chlorine gas in water? Most assuredly they do. Dr. Scott tells us that chlorine attacks bacteria in contaminated water and is bound up with the impurities, the balance of the chlorine passing off into the atmosphere.

But does it? The chemical reports tell us that the gas is 2½ times as heavy as air. The liquified gas is as a matter of course still heavier. How then can it pass off into the air? If there has been, as he asserts, no contamination found in Hot Springs water during 1946-47 what then goes on with this chlorine?

The Columbian encyclopedia states "the solution of this gas in water forms the acid known first as Spirit of Salt, then as Muriatic Acid, and now as Hydrochloric Acid". The best information at hand indicates that water will absorb chlorine gas to the point of complete saturation when oxygen is eliminated and the combining of the gas with hydrogen forms hydrochloric acid, also used in tanning hides, to remove the glue from them.

Up to the time of the first world war arthritis was a rare disease but with the drinking of this chlorinated water thousands of service men returned home, their bodies pitifully twisted with it. Victims of kidney stones and prostate trouble have increased. Today one can scarcely walk a block (since it is served to civil populations also) without seeing twisted bodies of arthritis victims. It seems to us high time some thought should be given to eliminating this stuff from treated water before serving it to the public.—HERALD, Hot Springs, New Mex.

"Recession" Wave is upon US

The natural exhaustion of war hysteria and waste-spending has brought about the long-heralded "recession". People are tightening their purse strings. The income of THE BROOM is shrinking terribly fast.

The printer, like everybody else, raised his price to us. And what do we pay him for? For doing a better printing job? No.

I watched him the last few days. He used to work in the printshop, printing. Now he spends all his day in the front office **keeping books and making reports for the tax collectors.** And he has to hire help to do the printing he used to do. And as he hires help, he has more books to keep, paying social security taxes, industrial security insurance, withholding taxes **and I have to pay for the taxes and for the bookkeeping,** too, which adds nothing to a better printing job, as I would be expecting since I am paying more now.

Since THIS is the REAL cause of inflation, all along the line, we are now wasting MORE money in peace time, daily, than we used to waste before the war. The way the government robs me thru this tax inflation to support bureaucrats and parasites, everybody is being robbed, too.

The German-Americans are bled white sending parcels and money to Europe. Half of it is stolen and supplies the black market. In the meantime the strangulation of freedom in America proceeds apace. After Margaret Lovranich was stopped by the P. O. from sending herbs by mail, now they are after Daglish and Kullgren, too. It's a Jewish-medical calculated move, as predicted in the Protocols, to stop the people from living naturally and forcing them to be poisoned by medical "vitamins", serums, innoculations and voodoo witchcraft thru vivisection and cancer "cures", etc.

This is not an idle call of "wolf, wolf". The wolf is here.

We have to tell you that we need every penny you can spare now every week, if we are to continue printing and paying for THE BROOM. Think it over and decide. At present prices it costs about $8 a year to issue THE BROOM. We have **very good reasons** for charging only $4. Betters reasons than you can dream of. But now all of you who can spare a $ must send it in regularly. We have to have it. Fred is working for nothing, so do I.

ANTI-CLOSED SHOP LAW WITHSTANDS COURT TEST

CLINTON, TENN.,—Tennessee's newly enacted anti-closed shop law withstood its first court test. Chancellor J. R. Ketron ruled the act is constitutional and "designed to protect non-union workers against loss of their jobs or employment on account of their failure to join a union."

The Chancellor's opinion dismissed a suit filed by the Federal Firefighters of Oak Ridge (AFL) contending the act violated provisions of Federal and State constitutions and the National Labor Relations Act.

Secretary Stimson was author of the Roosevelt administration's statement of intention 13 days before Pearl Harbor: "The question was how we should maneuver them (the Japanese) into the position of firing the first shot without allowing too much danger to ourselves." What else is necessary to make him a war criminal in the light of the Nuernberg charter?

"SEDITION" CASE BECOMING EXPLOSIVE

WASHINGTON,—It is known that several Senators are seriously considering the matter of taking up the "sedition" case in a big way either thru a speech on the floor or thru exhaustive hearings in some suitable committee. The cooking of this monstrous judicial proceeding was begun in the Grand Jury at the behest of Roosevelt himself over five and a half years ago and has become more and more disgraceful with each passing year.

Senator Langer made a stirring speech in protest in 1944 while the trial was still in progress. This was a courageous and magnificent thing to do, but since then he has apparently lost interest and it is often asked why he should be more tender toward Tom Clark and Harry Truman, who are now carrying it on, than he was toward Francis Biddle and Franklin Roosevelt who framed it up. The fact that Langer was active in the matter has worked to some extent in deterring other senators from taking it up, but, they say, if he has lost interest or is otherwise engaged, then somebody else ought to get busy in an effort to bring some kind of belated justice to the 40-odd defendants who in so many ways for so long were and are still kept dangling in the toils.

The more it is realized on the hill that the Jews motivated the prosecution in the first place and that it is still kept alive thru the political blackmail of Jew pressure groups, the greater is the indignation among the large number of Senators who know the score even including some of those who voted to confirm Lillienthal as head of the Atom Bomb Commission.

It is known that many of Tom Clark's friends have urged him to get out from under on the plea that he is doing himself more harm than good in thus catering to the Jews, but so far Tom can't see it that way.

GOP PRESIDENTIAL ASPIRANTS

Congress is trying to adjourn early in July and after that all the Republicans will give much of their attention to building their political fences for next year's campaign. At the present time, it looks as if Stassen is washed up for good and all. If he hadn't thought so himself, they say, he wouldn't have gone to Moscow to hobnob with Stalin. And Vandenberg is in much the same boat. He has played the Truman New Deal games so conspicuously and so consistently that his name is as good as scratched off the probable list of available GOP candidates. It is said by close friends that he has finally realized his big mistake and is trying to hedge, but the general verdict that it is too late to stage a come-back into GOP good graces.

As it stands today, Dewey and Taft are generally touted as leading candidates with Bricker looming up strongly in the background. The belief is widely held that when it comes to voting in the convention, neither Taft nor Dewey can get the requisite majority for nomination and to break the deadlock, Bricker will be brought forward as the likeliest compromise. Bricker is easily the ablest of the three and possesses more of the legendary presidential qualifications than either Taft or Dewey. His splendid fight against the confirmation of Lillienthal has substantially increased his political stature and brought him many new friends who have heretofore been neutral.

BARUCH, THE MADHOUSE KEEPER

The Washington Times-Herald and N. Y. News publish the same splash 2-column editorials. One of them has just been devoted to "Baruch", the "elder statesman", and the fulsome praise of certain of his remarks on political and economic matters uttered at some kind of a shindig. To read it is enough to set a decent intelligent man to puking, for it is nothing but the cheapest brand of sophomore grade blah-blah generality. Surely the higher ups in these papers did not okay that stuff in advance. Or did they? Both papers are subject to strange and wholly unpredictable contradictions.

"Elder Machiavelli" or perhaps just "Elder Schemer" would be a better designation for this phony park-bencher, or better yet "Elder Lobbyist". He is to Jewry what Eric Johnston is to the movies or (Un) Happy Chandler is to baseball, only he is smoother and more "under cover" than the other two. As a dispenser of huge campaign contributions and various substantial emoluments, controlled by Jews, he exercises great influence in Congress and apparently in the offices of the News and Times-Herald.

He is generally credited hereabouts with putting over the Lillienthal outrage. He had strings on just enough venal Senators to turn the trick. "Baruch called his mortgages" as one Senator expressed it.

Verily, Verily, we are in a bad way when mountebanks like that can have their blurbs treated as gospel by papers such as the above.

If that's elder statesmanship, I'll take vanilla served in a crackpot.

SHABES-GOY EATS CROW

Another defeat for our corrupt Department of Justice under Tom Clark and Harry Truman has just been scored by the dismissal of perjury charge brought against Lancaster Greene by a slavish and incompetent Grand Jury under the thumb of the Department of Justice. Greene was indicted in connection with Douglas Stewart and was rushed in as a substitute for George Eggleston when the latter was discovered to have a perfect alibi.

When Stewart was found not guilty and it was seen that the same testimony applied to Greene, the government had nothing left but to come into court and shamefacedly ask that Greene be exonerated.

Foreign Policy Really Shaped By Financiers

By WALTER TROHAN in Times-Herald

WASHINGTON,—The nimble fingers of Wall Street and the long arm of London counting houses are widely regarded on Capitol Hill as the real molders of the so-called American bipartisan foreign policy.

For many years observers here were inclined to regard the late Franklin D. Roosevelt as the fountainhead of American policy. Since his death the continuance of the policy of international meddling has brought a shift in opinion.

The New York financial interests and various elements profiting in foreign trade are now considered as having shaped American foreign policy for the last decade.

CLOSE TIES WITH "CITY"

Wall Street has for many years maintained close ties with "The City", as the financial district of London is known. The doors of Britain's best homes up to and including Buckingham Palace have been thrown open to American financiers. Social and financial ties have been cemented by blood ties through marriage.

British financial interests have always exerted tremendous influence in their American brethren through use of titles. Britain knighted and ennobled leading economists so that when she encountered financial difficulties she was able to send a title over to this country to get the aid she wanted.

Taking a leaf from the book of the British financiers, Wall Street interests have employed social favors and even college degrees to win recruits to the internationalist cause.

THE DOMINANT VOICE

Social invitations were similarly used. The financiers were also able to bring recognition of their supporters as great liberals in various newspapers and publications, and over the air.

Members of Congress regard Thomas W. Lamont, chairman of the board of J. P. Morgan & Co., as the most powerful figure in New York financial circles. His position is being challenged somewhat by Winthrop Aldrich, head of the Chase National Bank, but the latter has far to go before he fills the Lamont shoes, observers here agreed. Aldrich proposed making an outright gift of the 3¾ billion dollar grant to Britain.

Morgan & Co. is considered the dominant voice in Wall Street. Other potent voices in addition to the Chase National Bank are such international bankers as Lazard Freres, Lehman Brothers and Kuhn, Loeb & Co.

HAVE GREAT POWER

The recent appointment of J. J. McCloy, former Wall Street lawyer and former Assistant Secretary of War, as head of the World Bank was reported here as a moving out of Lazard Freres and a moving in of Chase National.

These international bankers have great power in groups which profit from foreign trade.

PUNCH and JUDY

WASHINGTON,—If I needed anything to reassure me that we are still a democracy this did it:

The President of the United States huddled for a half an hour in his auto in the pouring rain last Monday waiting for a ball club owner to make up his mind whether to hold the opening ball game!—George Dixon.

Editor's Note: Dixon fools himself. The incident proves Truman a cheap lackey of mob-rule. He is nothing but a stuffed marionette of the powers that pull the strings for him to dance and "play ball".

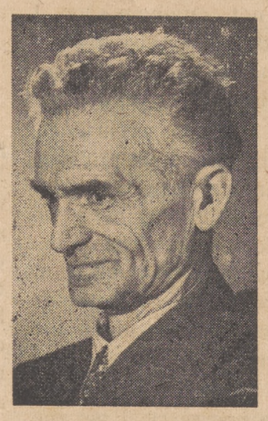
I had a talk with one of the largest and most successful manufacturers in San Diego. Naturally, we discussed the economic, political and Jewish situation, since the Baruch-Sanhedrin directs all things today. I reminded him of another talk, 4 years ago, when I had warned him of a swing to "conservatism" and not to believe it, for it was **not American conservatism,** but Jewish conservatism, by which the Sanhedrin planned to conserve its plunder and hence the GOP came to "favor" again. The GOP are the Shabes-Goyim, Gentile yes-men of the Sanhedrin, who administer the U. S. A. to conserve the rule of Baruch & Co.



C. Leon de Aryan

My friend remembered my prediction and now we notice how the swing against "Communism" is here. Poppycock! The Sanhedrin is preparing to use the U. S. A. in the third world war and has started to "condition" the morons to hate the Russian to white heat; to submit to Universal Military Training: to obey orders of the Sanhedrin blindly and murder whomever the **SEPHARDIC PRINCE OF HELL** calls "enemy".

To keep the fools confused, we are told that "prices" are the cause of a "recession". And the morons fall over each other in "week-long experiments" of cutting prices. Why not **CUT the National Debt to ZERO!?** FDR said "we owe the debt to ourselves"; why not call off our **self-imposed BONDAGE?** And as soon as our debts to ourselves are no more, behold, the **taxes are TAKEN OUT of prices,** and the usurers put out of business, while business can resume **normally.** That's the solution to "recession" or "inflation". To stabilize prices **levy no more taxes on business** but take the **public RENT,** caused by collectively produced land-values, in place of taxes, and see how business prospers **without being made tax collectors.** Today business pays and collects taxes first before it sells its own products.

* * * *

Marshall, the Chief of Staff of scientific mass-murderers or better said, the strategic head of the Sanhedrin's gunmen, returned from Moscow where he was sent to make sure Russia will go to war again. Marshall has experience and was found a good and faithful servant of the Sanhedrin FIRST, at Pearl Harbor, where he saw to it that **"the Japs fired the first shot"** to get the American morons red hot for war. Now he went to Moscow to prepare the terrain and make believe that he stands for "humanity" and "democracy" against the "uncivilized" Russians. He is hard-boiled enough to **carry out Sanhedrin strategy,** the way he carried it out in the war when we invaded Normandy and let the Russians have all of eastern and central Europe to give them enough foothold for a successful third world war. Yes, Marshall is a good Shabes-Goy General. Baruch is proud of him, he **OBEYS.**

And in San Diego we voted for a consolidation of the Police and Firemen's Pension System. Since the majority of the men in the ranks voted for it, we gave them what they asked. We also reduced the amount of the pension and now our Fire Chief John Parrish resigned to get his full pension before the new law goes into effect. George E. Courser, his assistant, takes his place. They both are good men who know their business and if our politics were conducted as efficiently and matter-of-factly as the firemen do their duty, we would live in paradise.

But, in Long Beach they recently did away with the Pension System and a policeman went to court and sued for his pension. The California Supreme Court ruled that the man had contracted at the time of employment for a certain salary, and the **pension as a PART of his salary,** and ordered the city of Long Beach to pay him his full pension. The same situation exists in San Diego. The new law **applies to men who join the force AFTER** its enactment. The city must pay the **contracted pension to ALL** who were hired under the old system. And there is a very good reason for it.

DO YOU WANT THE POLICE TO JOIN THE CIO? The Appellate Court has recently ruled that the police cannot serve the City of Los Angeles and at the same time be controlled by the labor racket bosses of a private union. That is as it should be. But if the City of San Diego shoves the police and firemen around, hiring them under one wage scale and then robbing them of the pension they contracted for, the **City forces them to SEEK PROTECTION** by joining some union and going on strike. Unions originated when employers kept no faith with their exploited slaves. Now we must either voluntarily abide by our contractual obligations with public employees or force them into labor unions. These are responsibilities we cannot deny but must fulfill.

Paying Guest

Charles Chaplin, who for years convulsed American theater audiences with his antics, didn't set anyone to rolling in the aisles with his statement that he is merely a "paying guest" in the United States.

Mr. Chaplin has lived in the United States and has enjoyed its opportunities and its blessings for 30 years, but he has made no attempt to become a citizen. He explained this by saying that he cannot become a citizen because he is not a nationalist.

From the angle of the "host" as well as of the "guest", this would seem to present a complicated situation. Usually a guest finds it convenient and beneficial to enter co-operatively in the activities of the home where he remains for any length of time. He does not make a burden of himself, and if he remains for three decades or more he certainly considers that he is a part of the household.

But not Mr. Chaplin. He isn't one of us because he is against the idea that there should be nations. And because he is against us he has helped finance radical activities designed to rip the foundations from under the house where he is a guest. Frequently he has been called a Communist, which may be a little extreme; he also has been called an ingrate, which perhaps is more accurate.

The Chaplin case would seem pointed enough to justify a revision of our policy toward "paying guests". There should be a limit placed upon the time such a guest may remain without legally becoming a part of the family. It is true that Mr. Chaplin has paid high taxes, but he must admit that he has been a rather expensive guest, what with all his matrimonial and allied troubles.

He should note, too, that the obligation of a guest does not include putting poison in the host's coffee; in a measure that is what he has done in his support of subversives. Really, if he should decide to go back to his native England he might be surprised at how few obstacles would be thrown in his way.
